nized 'lily white' Republican club here, embracing a membership of over four hundred members, all of whom have agreed to support Judge Lewis and his entire tloket this fall.

It is said that the rolls of this new club contain the mames of a number of young men, who have heretofore supported the Democratic tleket, and that no man is allowed to join whose poll taxes have not been pall.

The "man in black" is "down and out," and little or no attention is being pald him by the Republican leaders.

It may be that the alleged white Republican club does not embrace as many voters as rumor says it does, but it is well understood that the leaders are quietly and systematically at work in Richmond, and that they are building un something of an organization here,

This leads to the hope that the reports next week will be much lighter than they were last week. hope that the roports next week will be much lighter than they were last week. The heavy report last week is attributed to the fact that every ten or twelve days there is a marked increase in the number of new cases, showing a recrudescence of fever from foct which was not originally known. This is fortunate in that it enables the authorities to trace these cases to the original focus in the locality, any by thorough fumigation to eradicate the source of infection.
